

DASHBOARD

1. Filtering field

A

From

2024-07-01

B

To

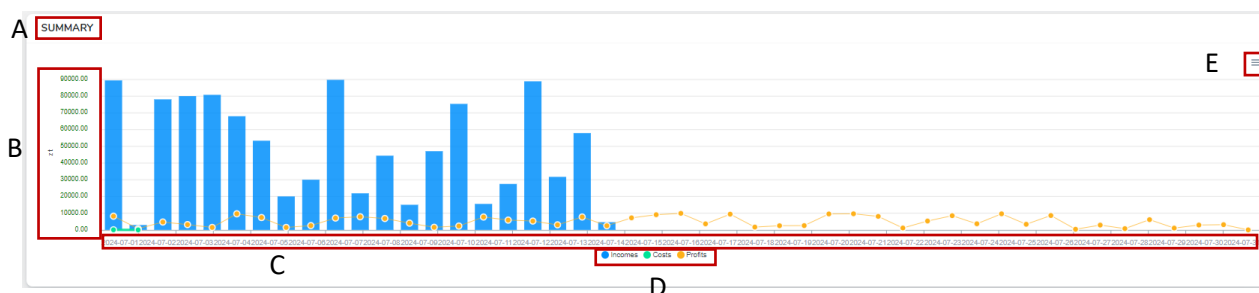

2024-07-31

C

Filter

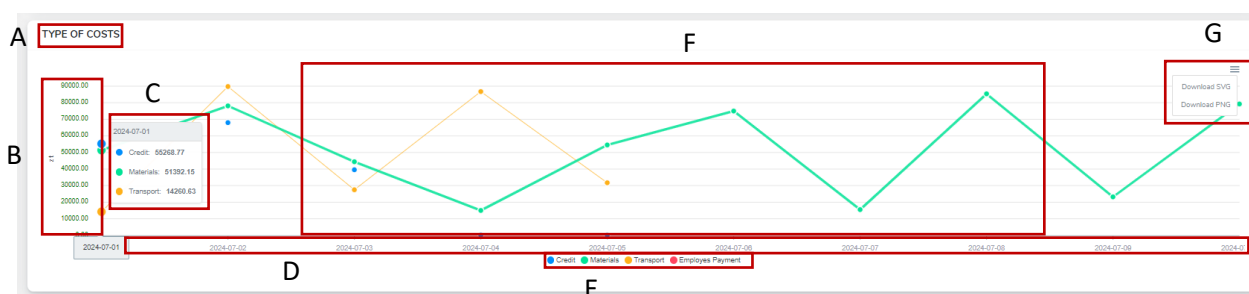

Instead of "From," it should be "Od."(translation)
 Instead of "To," it should be "Do." (translation)
 Instead of "Filter," it should be "Filtruj." (translation)

2. Summary

- Instead of "SUMMARY", it should be "PODSUMOWANIE".(translation)
- The unit should be rounded to whole numbers without decimal places. Change the font to XYZ.
- The main unit should be responsive - the larger the range, the larger the frequency unit. For example, for a 5-year range, the main unit is years or quarters, and for a week, the main unit is a day. The date range should be the same for all three charts regardless of when the first or last operation was in the selected range.
- The ability to mark or unmark the visibility of a given data group is not sufficiently visible. Please apply another method. Problems with the visibility of the "Costs" group. Instead of "Incomes" it should be "Przychody." Instead of "Costs" it should be "Koszty." Instead of "Profits" it should be "Zyski".(translation)
- Add the option to export to XLS or XLSX for the other charts as well.

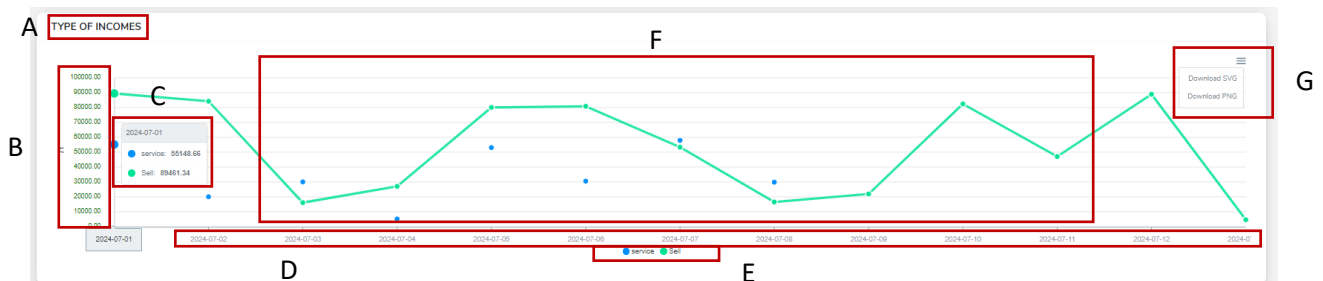

3. Costs

- Instead of "Type of Costs" it should be "Koszty"(translation)
- The unit should be rounded to whole numbers without decimal places. Change the font to XYZ.

- C. Such a daily summary should be displayed within the given day without specifying hovering over specific dots.
- D. The main unit should be responsive - the larger the range, the larger the frequency unit. For example, for a 5-year range, the main unit is years or quarters, and for a week, the main unit is a day. The date range should be the same for all three charts regardless of when the first or last operation was in the selected range.
- E. The ability to mark or unmark the visibility of a given data group is not sufficiently visible. Please apply another method. Problems with the visibility of the "Employees Payment" group. Instead of "Credits" it should be "Kredyty". Instead of "Materials," it should be "Materiały". Instead of "Employees Payment" it should be "Wynagrodzenia".(translation)
- F. Each data series should be presented with a line chart, not a dotted chart.
- G. Add the option to export to XLS or XLSX for the other charts as well.

4. Incomes

- A. Instead of "Type of Incomes" it should be "Przychody"(translation)
- B. The unit should be rounded to whole numbers without decimal places. Change the font to XYZ.
- C. Such a daily summary should be displayed within the given day without specifying hovering over specific dots.
- D. The main unit should be responsive - the larger the range, the larger the frequency unit. For example, for a 5-year range, the main unit is years or quarters, and for a week, the main unit is a day. The date range should be the same for all three charts regardless of when the first or last operation was in the selected range.
- E. The ability to mark or unmark the visibility of a given data group is not sufficiently visible. Please apply another method. Instead of "Services" it should be "Usługi". Instead of "Sell" it should be "Sprzedaż". (translation)
- F. Each data series should be presented with a line chart, not a dotted chart.
- G. Add the option to export to XLS or XLSX for the other charts as well.
